- B. Two black breast bands
- C. A spotted chest

2. Where might you find a Killdeer?

- A. Only on ocean beaches
- B. High in dense forest canopy
- C. On lawns, gravel, and open fields

3. What should you listen for?

- A. A clear repeated “kill-deer” whistle
- B. A deep owl hoot
- C. A rapid woodpecker drum

Field habit:

Watch from a respectful distance. Do not approach nests, eggs, or chicks.

Write one extra detail you noticed: _____

Answer Key

Use after completing the observation quiz

1. B — Two black breast bands

This paired-band pattern is the key visual field mark.

2. C — Lawns, gravel, and open fields

Killdeer are shorebirds, but they often live well away from water.

3. A — A clear repeated “kill-deer” whistle

The bird’s common name echoes its ringing call.
